Some of the more important rules are restated in this (county) rulebook, but not all the rules are reprinted here. Therefore exhibitors are advised to consult the state publication for class descriptions, judging standards, code of conduct and legal equipment for both performance and games divisions. The Polk County Fair Association and Iowa State University make no representation or warranty, express or implied, about any protective headgear, and caution all riders that death or serious injury may result despite wearing such headgear as all equestrian sports involve inherent dangerous risk and no helmet can protect against all foreseeable injuries.

27. Dress for exhibitors: Western/Games: long sleeve white or solid colored shirt is preferred, also acceptable are: tuxedo white shirt or FFA jacket. If absolutely necessary, exhibitors may mount inside the arena but must do so without assistance and the horse must remain under control at all times. Exhibitors will drop stirrups for inspection by designated gate official before entering arena. Once in the arena, exhibitors will wait until the gate is closed and the gate official gives the go order before starting their run. Failure to wait for the go order will result in a five second penalty. Exhibitors must come to a complete stop and dismount before exiting the arena.
35. Only a parent, leader or designated show official may assist the rider up to the gate. Adults may not enter the arena.

The intent is to showcase those exhibitors who, in the judge's opinion, display the best overall riding skills and give them a chance to show what they can do. No entry fee, no premiums, no points.
4. Exhibitors wishing to enter **bareback classes** must demonstrate to the Superintendent's (or other designated official's) satisfaction their ability to stay

1. Duplication of **copyright material** or design should not be used in a 4-H exhibit that is presented as original work by the exhibitor. A copyright design cannot be displayed in a public setting (fair) without permission being granted by the owner of the copyright. When permission has been granted, the exhibit will be displayed and labeled appropriately. Those without permission **cannot** be displayed. Many school art projects using copyright material are not acceptable. *See Brochure 4-H 634 (March 2000) for more information.*
2. A **purchased copyrighted item** can be used in an exhibit. Exhibits made from purchased kits must be identified. Example: a purchased puppet showing a child safety point, or a purchased poster of a Star Wars character which you framed.
3. Noxious weeds, endangered or threatened wild flowers, nest and small songbird feathers **CANNOT** be used in any exhibit. Pheasant, duck, goose and quail feathers "legally taken" are acceptable.
4. Any exhibit which includes a live plant must be in a water-proof container or include a drip saucer.
5. Exhibit video or audio cassettes should not be longer than 5 minutes.

### Awards

1. Gold ribbons are awarded to outstanding exhibits in any class by an exhibitor who just completed the 4<sup>th</sup> grade, and/or for exhibits in a class not eligible for State Fair (regardless of age).
2. State Fair and State Fair Alternates are limited to 4-H'ers who have completed 5<sup>th</sup> - 12<sup>th</sup> grades. Exhibits entered through FFA are not eligible for State Fair consideration.

### ART PRINCIPLES

Principles of design are the directions or guidelines for mixing the elements. Principles included are balance, rhythm, emphasis, proportion, and unity.

1. **Balance** gives a feeling of stability. There are three types of balance.
2. **Symmetrical:** the elements used on one side of the design are similar to those on the other side.
3. **Asymmetrical Balance:** the sides are different but still look balanced.
4. **Radical:** they are arranged around a central point and may be similar.
5. **Rhythm** is organized movement. It allows the eyes to move from one part of a design to another. It can be achieved through repetition, graduation, and alternation.
6. **Emphasis** is the part of the design that catches the viewer's attention.
7. **Proportion** refers to the relationship between one part of a design and another part or to the whole design. It is a comparison of sizes, shapes and quantities.
8. **Unity** When things look tight together, you have created unity or harmony. Lines and shapes that repeat each other show unity (curved lines with curved shapes). Colors that have a common hue are harmonious. Textures that have a similar feel add to unity. But too much uniformity sometimes can be boring. Also, too much variety destroys unity.

**ELEMENTS OF DESIGN**

Design has individual elements which are part of every item. These include color, texture, line, shape, and form. Design is an overall plan or scheme.

1. Color is described with the words hue, value, and intensity.
  - a. Hue: refers to the name of the color
  - b. Value: tells the lightness or darkness of a hue
  - c. Intensity: refers to the brightness or dullness of a hue.
2. Line can be horizontal, vertical, dotted, zigzag, curved, straight, diagonal, bold, or fine. Lines can show direction, lead the eye, outline an object, divide a space and communicate a feeling or emotion.
3. Texture is the surface quality that can be seen and felt. Textures can be rough or smooth, soft or hard. Textures do not always feel the way they look.
4. Shape is a closed line. Shapes can be geometric, like squares and circles; or organic, like free-formed shapes or natural shapes. Shapes are flat and can express length and width.
5. Form are three-dimensional shapes, expressing length, width and depth. Balls, cylinders, boxes and triangles are forms.
6. Space is the area between and around objects. The space around objects is often called negative space; negative space has shape. Space can also refer to the feeling of depth. Real space is three-dimensional; in visual art when we can create the feeling or illusion of depth we call it space.
